# CONTENTS

Proceedings of the Second Workshop on Nonadrenergic Noncholinergic Mechanisms, Ghent, September 28–29, 1989 . . . . . 3

Contents . . . . . 5

Preface . . . . . 7

Peptide and Classical Transmitter Mechanisms in the Autonomic Nervous System. *J. M. Lundberg* . . . . . 9

Nonpurine, Nonpeptide Mechanisms. *J. S. Gillespie* . . . . . 20

$P_1$- and $P_2$-Purinoceptor Subtypes—An Update. *C. Kennedy* . . . . . 30

Heterogeneity of VIP Receptors. *P. Robberecht, A. Cauwin, P. Gourlet and J. Christophe* . . . . . 51

Neurogenic Inflammation in Airways and its Modulation. *P. J. Barnes* . . . . . 67

The NANC System and Airway Vasculature. *J. G. Widdicombe* . . . . . 83

Nonadrenergic, Noncholinergic Control of Mucus Secretion in the Airways. *S. E. Webber* . . . . . 100

Synergistic Mechanisms in the Adenosine- and Neuropeptide-Induced Bronchoconstriction. *R. Pauwels, G. Joos, J. Kips and M. Van Der Straeten* . . . . . 113

Mechanisms of Purine-Induced Bronchoconstriction in Asthma. *S. T. Holgate, J. P. Finnerty and R. Polosa* . . . . . 122

Mechanisms Involved in Neurokinin-Induced Bronchoconstriction. *G. F. Joos and R. A. Pauwels* . . . . . 132

The Human Pharmacology of Capsaicin. *R. W. Fuller* . . . . . 147

Capsaicin-Sensitive Nerves in the Gastrointestinal Tract. *C. A. Maggi* . . . . . 157

Central Organization of the Vagal Drive to the Nonadrenergic, Noncholinergic Neurones Controlling Gastric Motility. *P. L. R. Andrews* . . . . . 167

Effect of Adenosine Triphosphate and Related Purines in the Rat Gastric Fundus. *R. A. Lefebvre and G. Burnstock* . . . . . 199

Is Peptide Histidine Isoleucine an Inhibitory Nonadrenergic Noncholinergic Neurotransmitter in the Rat Gastric Fundus? *M. D'Amato, D. Currò, G. Ciabattoni and R. A. Lefebvre* . . . . . 216

Regulation of the Peristaltic Reflex by Peptides of the Myenteric Plexus. *J. R. Grider and G. M. Makhlouf* . . . . . 232

Peptidergic Mechanisms in the Pancreas. *J. J. Holst* . . . . . 252

Nonadrenergic Noncholinergic Mechanisms in the Ileocolonic Junction. *G. E. Boeckxstaens, P. A. Pelckmans, M. Rampart, T. J. Verbeuren, A. G. Herman and Y. M. Van Maercke* . . . . . 270
